

**ELEVATOR
BOUTIQUE**

life with style

The Company

Known internationally for their state-of-the-art design, engineering, construction, and service capabilities, Elevator Boutique is a full service home elevator company based in West Hollywood, California.

By sourcing latest designs, premium materials and advanced technologies from around the world and combining that with their extensive industry knowledge and ongoing research and development, the company is able to consistently evolve its offering to take advantage of the most advanced trends and innovations for the best value.

Journey to the Cloud

Elevator Boutique is well aware that success comes from not only “working smarter” when it comes to providing exceptional products and services to clients, but also when making decisions about how to grow the company in critical areas such as technology.

“Our experience with Cloud9 has been great! The customer service/tech support when there is an issue is tremendous. The timely follow through to resolve issues is terrific. They really know their products!”

~ Tara Ferry, Controller

By moving to the cloud and becoming a client of Cloud9, the company has been able to:

- Increase efficiencies
- Store data offsite in a secure location but where it is easily accessible with reliable and professional service
- Save money when compared to purchasing and supporting in-house equipment or other potential solutions
